

Climate change is a grim reality that needs concentrated efforts from all to ensure a cleaner, green, habitable earth for the generations to come.

We at RSWM care about the carbon footprint of our products and wish to collectively address the impact the products have on environment across the whole supply chain.

RSWM EDGE™ Change, a conscious awareness, our realization of a change that needs to be the backbone of sustainable development; are environment-friendly products throughout the entirety of their lives. Apart from the sustainable methods employed to create all RSWM EDGE™ yarns these are yarns that are

certifiably novel methods to comply to sustainability standards.

So join hands with RSWM EDGE™ Change to change from fleeting to sustainable, to change from conventional to a future.

“Carbon footprint reduction and minimal environmental damage from organic or eco-friendly fibres, during and after the product manufacture.”

Size of hang tag:
1.45" X 3.74"

Rules of acquiring tags:

5 HT/kg for garments that contain at least 50% RSWM EDGE™ Change yarn.

RSWM EDGE™ Change yarn range

Change_x86306 | Change_xkw30400078 | Change_xkw304000232 | Change_x76191

*Final decision of issuing the hang tags lies with RSWM Ltd. The garments need to confer with certain standards specified and the values indicated are only an estimate and the product will be tested to determine the tag's features.
