

**RSWM LINEN BLENDED
MELANGE YARN**

EPITOME OF PERFECTION

RSWM, one of **India's largest manufacturers and exporters** of synthetic and cotton blended spun yarns is **one of the dreams** of the great visionary and industrialist Shri L. N. Jhunjhunwala.

EPITOME OF PERFECTION

The LNJ Bhilwara Group began its journey with a small textile unit in Bhilwara, **and now it's a multifaceted, versatile conglomerate** with interests in Textiles, Graphite Electrodes, Thermal Power and IT.

RSWM Limited has grown into a **prosperous textile hub** and has established an **ascendant position** in the Indian textile space. It is now a **frontrunner in all the segments** wherein it has its presence.

In over 78 countries globally, the organization manufactures and supplies **high-quality yarns** to some of the most renowned brands and is coming up as the **domestic and international textile industry leader**.

It has a capacity of **4,76,424 spindles & 167 looms** to produce various yarn blends such as Cotton, Synthetic, Core-Spun, Zero-Twist, Hollow-Core, Greige, Dyed, Fancy, and Melange along with Eco-friendly, and Sustainable yarns. These knitting and weaving yarns are applied in various segments such as suiting, shirting, knits, sewing thread, home furnishing, carpets, industrial, and medical applications.

RSWM has **woven stories for the past 57 years** through its high-quality Cotton, Melange, Synthetic, and Novelty yarns, as well as denim fabric all over the world.

The organization is three times the **recipient** of the **Rajiv Gandhi National Quality Award** and is recognized as a **Golden Trading House** by the **Indian government**.

The LNJ Bhilwara group is **Proud to be Indian, Privileged to be Global**, and the legacy continues.

ORGANIC

THE PRODUCT USP_s

Linen is a hollow breathable fibre but keeps you cool in the summers and warm in winters.

Linen is naturally hypo-allergenic and antibacterial, hence a supreme choice for sensitive skin.

Linen absorbs 20% of its own weight hence doesn't feel damp and keeps the skin dry.

Linen is a UV protected fibre.

Linen has comfort, thermo-regulation, and moisture management.

Linen fabrics get softer with every wash.
